- Lecture Series
 - Tuesdays

16

The Board (not important)

- Varun – Pres
- Sinziana – Math Chair
- Vishal – Finance Chair
- Mike – Econ Chair
- Varun – CS Chair
- Arvindh – Vice-Pres

17

The Flaw in the Plan

- August Turmoil.
- Why did all these quant groups lose so much money?
- They "undoubtedly share some signals in common with our own, and the result has been losses." ~ Dr. James Simons, Ph.D.
- Remedy : Be Innovative. Be Unique. Be Curious.

18

The Free, the Curious, the Quants

- “Everything that is really great and inspiring is created by the individual who can labor in freedom.” ~ Al Einstein
- Example: QuantFS’s proprietary model
- Come up with your own.

19

ApolloClap

- The Process
 - Conception
 - Proposal
 - Judgment Day
 - Deliverance
 - Repeat
- Goal : Present innovative, unique, and curious topics to your peers.

20

□ Why should members care?

- Uncle Sam wants you! – Paid to present
- Creativity –heat diffusion equation can be solved to yield option prices?!
- More interesting than hearing us drone on and on unendingly
- Get your own quant careers started!
Learning is ok, but thinking is better!

21

For queries,
proposals,
comments:

Open for questions
after presentation

22

The Board (not important)

- Varun – Pres
- Sinziana – Math Chair
- Vishal – Finance Chair
- Mike – Econ Chair
